BUSINESS INSIGHTS

1. Which team has the highest number of wins?

Answer: Rajasthan Royals

- Rajasthan Royals — **220 wins**
- Punjab Kings — 180
- Lucknow Super Giants — 140
- Delhi Capitals — 140
- Royal Challengers Bengaluru — 140

Therefore:

> **Rajasthan Royals has the highest number of wins with 220 wins.**

2. Which season had the highest number of matches?

Season	Matches
2019	**200**
2020	200
2021	200
2022	200
2023	200
2024	200

Therefore, there is **no single highest season**.

> **All seasons from 2019 to 2024 recorded 200 matches each, so they are tied for the highest number of matches.**

3. Which player has received the highest Player of the Match awards?

Yashasvi Jaiswal — 119 awards

Top players:

Player	Awards
Yashasvi Jaiswal	**119**
Liam Livingstone	100
Axar Patel	80
Faf du Plessis	80
KL Rahul	79

Therefore:

> **Yashasvi Jaiswal received the highest number of Player of the Match awards (119).**

4. Who is the highest run scorer?

Based on your Runs_Scored column:

Jos Buttler — 170 runs

Top run scorers:

Player	Runs
Jos Buttler	**170**
Sanju Samson	163
Yashasvi Jaiswal	137
Shikhar Dhawan	129
Jitesh Sharma	122

Therefore:

> **Jos Buttler is the highest run scorer in this dataset with 170 runs.**

5. Who is the highest wicket taker?

Based on your Total_Wickets column:

Sanju Samson — 10 wickets

Top wicket takers:

Player	Wickets
Sanju Samson	**10**
Yashasvi Jaiswal	8
Liam Livingstone	7
Nicholas Pooran	6
Jos Buttler	5

Therefore:

> **Sanju Samson is the highest wicket taker with 10 wickets.**

⚠ **Note:** This result looks unusual for real cricket because your dataset is a constructed project dataset and the Bowler/Total_Wickets fields don't necessarily represent real IPL bowling statistics.

6. Which venue hosted the highest number of matches?

Punjab Cricket Association IS Bindra Stadium

It hosted:

> **260 matches**

Top venues:

Venue	Matches
Punjab Cricket Association IS Bindra Stadium	**260**
Sawai Mansingh Stadium	180
Narendra Modi Stadium	140
MA Chidambaram Stadium	140
Bharat Ratna Shri Atal Bihari Vajpayee Ekana Cricket Stadium	120

Therefore:

> **Punjab Cricket Association IS Bindra Stadium hosted the highest number of matches (260).**

7. What is the most common toss decision?

Toss Decision	Count
Field	**740**
Bat	460

Therefore:

> **Fielding is the most common toss decision, occurring 740 times.**

Percentage:

Field = 61.67%

Bat = 38.33%

So approximately **62% of toss decisions were to field first**.

8. Does winning the toss appear to influence match results?

Your dataset gives:

Result	Matches
Toss winner also won	**600**
Toss winner lost	**600**

Therefore:

600 / 1,200 × 100 = 50%

So:

> **Winning the toss resulted in a match win 50% of the time.**

Business/analytical interpretation:

This suggests that, **in this dataset, winning the toss does not appear to provide a strong advantage**, because the toss winner won exactly half of the matches.

You can write:

> **The analysis shows that toss winners won 50% of the matches, indicating no clear influence of the toss on the final match result in this dataset.**

9. Which season recorded the highest number of runs?

Season	Total Runs
2019	**619**
2022	598
2021	565
2024	544
2020	532
2023	532

Therefore:

> **The 2019 season recorded the highest number of runs, with 619 runs.**

10. Which team has the highest average runs?

Using Total_Runs grouped by Batting_Team:

Team	Average Runs
Sunrisers Hyderabad	**3.03**
Delhi Capitals	2.95
Rajasthan Royals	2.89
Gujarat Titans	2.83
Kolkata Knight Riders	2.79

Therefore:

> **Sunrisers Hyderabad has the highest average runs per record, at approximately 3.03.**

⚠ Again, these values are based on your dataset's Total_Runs structure, so don't interpret 3.03 as the team's real-world average IPL score.

11. What are the major performance trends?

Based on your dataset, the major trends are:

Trend 1 — Rajasthan Royals leads in wins

Rajasthan Royals has **220 wins**, making it the strongest team according to the win count in this dataset.

Trend 2 — Toss decisions favor fielding

Teams chose to **field 740 times**, compared with 460 decisions to bat.

Trend 3 — Toss does not strongly determine the result

The toss winner won **50%** of matches and lost **50%**, indicating no clear toss advantage.

Trend 4 — 2019 has the highest run total

The highest total runs were recorded in **2019**, with **619 runs**.

Trend 5 — Sunrisers Hyderabad has the highest average runs

Sunrisers Hyderabad has the highest average Total_Runs at approximately **3.03**.

Trend 6 — Yashasvi Jaiswal dominates Player of the Match awards

Yashasvi Jaiswal has **119 Player of the Match awards**, the highest in the dataset.

Trend 7 — Jos Buttler leads run scoring

Jos Buttler has the highest accumulated Runs_Scored, with **170 runs**.

Trend 8 — Sanju Samson has the highest wicket count

Sanju Samson has the highest Total_Wickets value at **10 wickets** in this dataset.

12. 10 Key Analytical Insights

These are the **10 points I recommend putting directly in your project report/PPT**:

1. **Rajasthan Royals recorded the highest number of wins with 220 victories**, making them the top-performing team based on match wins.
2. **Each season from 2019 to 2024 recorded 200 matches**, resulting in an equal number of matches across all seasons.
3. **Yashasvi Jaiswal received the highest number of Player of the Match awards (119)**, indicating strong individual performance in the dataset.
4. **Jos Buttler was the highest run scorer with 170 runs**, followed by Sanju Samson with 163 runs.
5. **Sanju Samson recorded the highest wicket count with 10 wickets**, followed by Yashasvi Jaiswal with 8.
6. **Punjab Cricket Association IS Bindra Stadium hosted the highest number of matches (260)** among the venues in the dataset.
7. **Fielding was the most common toss decision**, selected in 740 out of 1,200 records, or approximately **61.7%**.
8. **Winning the toss did not show a significant advantage**, as toss winners won exactly **50%** of the matches.
9. **The 2019 season recorded the highest total runs (619)**, followed by 2022 with 598 runs.
10. **Sunrisers Hyderabad had the highest average** Total_Runs **per record (3.03)**, indicating the highest average scoring level according to this dataset's structure.
